

Due for the exercise session: June 25, 2026

- (1) In the winter semester 2012/13 I was teaching a course discrete structures III with the title “Konstruktive Kombinatorik”. One of the chapters of the course was TILINGS. You find exercise sheet 13 of this course as `TopicsWP/koko-sheet13.pdf` below. Here `TopicsWP` is a shortcut for the web-directory of the course, i.e., for `http://page.math.tu-berlin.de/~felsner/Lehre/Topics26/` This is the exercise sheet for this week.
- a. The formula shown in exercise 2.b is the subject of the slides
`TopicsWP/kuo-macMahon-condensation-slides.pdf`
 - b. Zeilberger’s paper mentioned in exercise 3 can be found at
`arxiv.org/abs/math/9808079`
